

CORPORATE PRESENTATION

April 2022

All amounts expressed in U.S. dollars unless otherwise stated

SAFE HARBOR STATEMENT

The Company has presented certain future non-GAAP financial measures (“Non-GAAP Measures”) in this presentation within the meaning of National Instrument 52-112 – Non-GAAP and Other Financial Measures. Total cash costs per ounce of gold or gold equivalent (AuEq) sold (“TCC”), total cash costs margin per ounce of gold or AuEq sold, mine-site all-in sustaining costs per ounce of gold future Non-GAAP Measures. Non-GAAP Measures have no standard meaning under International Financial Reporting Standards (“IFRS”), the financial reporting framework used by the Company, and may not be comparable to other issuers. The Company believes that these measures, while not a substitute for measures of performance prepared in accordance with IFRS, provide investors with an improved ability to evaluate the underlying performance or financial position of the Company. For a detailed reconciliation of each historical Non-GAAP Measure to its most directly comparable GAAP financial measure, please refer to the Company’s management’s discussion and analysis (“MD&A”) for the year ended December 31, 2021, dated February 23, 2022, which is available on the Company’s website (www.torexgold.com) and under the Company’s SEDAR profile (www.sedar.com). Please note that in this presentation, the AISC, AISC margin, do not include Torex corporate G&A and potential sustaining exploration costs, and mine-site EBITDA do not include Torex corporate G&A.

This presentation contains information and extracts from the technical report (the “Technical Report”) titled “ELG Mine Complex Life of Mine Plan and Media Luna Feasibility Study” with an effective date of March 16, 2022, and a filing date of March 31, 2022. A feasibility study is based on a number of factors and there can be no assurance that the Company will be successful in constructing and operating the integrated project in an economically viable manner as contemplated in the Technical Report. The Technical Report has been filed on SEDAR (www.sedar.com) and posted on the Company’s website at www.torexgold.com. Readers are encouraged to read the Technical Report in its entirety, including all qualifications, assumptions and exclusions that relate to the mineral resource, mineral reserves and feasibility study related to the integrated project. The Technical Report is intended to be read as a whole, and sections should not be read or relied upon out of context.

This presentation contains “forward-looking information” and “forward-looking statements” within the meaning of applicable Canadian securities legislation. Forward-looking information includes, without limitation, information with respect to proposed exploration, development, construction and production activities and their timing, the results set out in the Technical Report, including, mineral resource estimates, mineral reserve estimates and potential mineralization; the estimates of capital and sustaining costs; life of mine unit costs, assumed metal payable factors; projected revenues and cash flows; estimated net present values and anticipated internal rates of return; estimated payback period; future production, operating costs, total cash costs and mine-site all-in sustaining costs and other expenses and other economic parameters; expected mine life or project life; expected mine, mill and metal production and metallurgical recoveries; the initiatives underway to realize available upside and build-on the solid base case production and cash flow; the Company’s future exploration potential; the strategic pillars, each as described in the presentation; expectation that executing on the strategic plan will significantly enhance shareholder returns; 2022 operational guidance, including 2022 investment in Media Luna; multi-year production outlook; development of Media Luna to have a material impact on the Morelos Complex and the expected key outcomes of the feasibility study; estimated gold equivalent production for the life of mine; estimated ore production for the life of mine; planned upgrades to ELG Process Plant to process Media Luna ore; expected advance of the Guajes Tunnel and South Portals and mitigation of schedule risk; expected production profile through to 2027 including AuEq production and sales and Cu production and sales projections; potential development of EPO and the ELG underground to fill the mill; plans to fund exploration programs in 2022; target for additional debt to support strategic priorities; expectation of enhanced liquidity via debt financing; executing on plan expected to deliver re-rating; expected benefits of mine services and logistics for Media Luna; expected ramp up period to commercial production; expected plant capacity of upgraded plant; life mine recoveries and payable factors; expected future average mine-site AISC relative to peers; sensitivity analyses of the Morelos Complex and the Media Luna Project; Media Luna Project schedule; extending the optimizing ELG as a key strategic priority; cash flow seasonality expected to be more pronounced in 2022; plans to comply with ESG performance standards; key opportunities to further improve the project economics, including leveraging excess mill capacity, exploration targeting to fill the mine and extend overall mine life, the ELG underground continues to be a key driver to mineral reserve growth, the Morelos property offers significant mineral resource potential, the Media Luna cluster has significant resource potential; and the results of the economic analysis including the incremental benefit of Media Luna Project on economics. Generally, forward-looking information can be identified by the use of terminology such as “plans”, “expect”, “outlook”, “forecast”, “estimate”, “near-term”, “long-term”, “opportunity”, “potential”, “plan”, “envision”, “beyond”, “commitment” and “ongoing” or variations of such words, or statements that certain actions, events or results “can”, “may”, “would”, “will”, occur, or “will be” taken or achieved. Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause the Company’s actual results, level of activity, performance or achievements to be materially different from those expressed or implied by such forward-looking information, including, without limitation, forward-looking statements and assumptions pertaining to the following: risk associated with skarn deposits including grade variability; fluctuation in gold, copper and other metal prices; commodity price risk; currency exchange rate fluctuations; ability to realize the results of the feasibility study; uncertainty regarding the inclusion of inferred mineral resources in the mineral resource estimate and the ability to upgrade the mineral resources to a higher category, uncertainty regarding the ability to convert any part of the mineral resource into mineral reserves, uncertainty involving resource estimates and the ability to extract those resources economically, or at all; uncertainty involving drilling programs and the ability to expand and upgrade existing resource estimates; ability to obtain the timely supply of services, equipment and materials for the operation of the ELG Mine Complex and the design, development and construction of the Media Luna Project; the regulatory process and actions; ability to finance the Media Luna Project on reasonable terms, and those risk factors identified in the Technical Report and the Company’s annual information form and MD&A. Forward-looking information is based on the assumptions discussed in the Technical Report and such other reasonable assumptions, estimates, analysis and opinions of management made in light of its experience and perception of trends, current conditions and expected developments, and other factors that management believes are relevant and reasonable in the circumstances at the date such statements are made. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in the forward-looking information, there may be other factors that cause results not to be as anticipated. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, readers should not place undue reliance on forward-looking information. The Company does not undertake to update any forward-looking information, whether as a result of new information or future events or otherwise, except as may be required by applicable securities laws.

The scientific and technical data contained in this presentation have been reviewed and approved by David Stefanuto, P.Eng, EVP, Technical Services and Capital Projects of the Company. Mr. Stefanuto is a Qualified Person under National Instrument 43-101 – Standards of Disclosure for Mineral Properties.

Inclusion of RBC Capital Markets ramp up curve or the industry cost curve based on Co-Product AISC (Source: S&P Capital IQ Pro) in this presentation is not an endorsement by the Company of such data analysis.

Torex Gold and the Bull/Moon logo are registered trademarks of the Company.

INVESTMENT HIGHLIGHTS

Future underpinned by solid fundamentals

Attractively valued relative to intermediate peers

Consistent operator with industry-leading safety track record

Financially strong gold producer with robust margins and a healthy balance sheet

Long-life operation via Media Luna Project

Innovation a key differentiator to drive value and reduce risk

Excellent relationships in Mexico through strong commitment to ESG

STRATEGIC PILLARS

Executing on plan expected to significantly enhance shareholder returns

OPTIMIZE & EXTEND ELG

- ▶ Build on culture as key strategic differentiator
- ▶ Ensure smooth transition from ELG to Media Luna
- ▶ Execute on El Limón Pit expansion
- ▶ Extend life of ELG Underground beyond current reserves

PRUDENT CAPITAL ALLOCATION

- ▶ Continue to strengthen the balance sheet to fund Media Luna Project and support strategic priorities
- ▶ Diversify asset base through value accretive M&A

ADVANCE & DE-RISK MEDIA LUNA

- ▶ Commence formal construction of Media Luna Project
- ▶ Complete 2022 infill drill campaign
- ▶ Tunnel advance from both north and south sides of Balsas River
- ▶ Advance permitting per plan

BUILD ON ESG EXCELLENCE

- ▶ Maintain industry-leading performance and disclosure on key social, environment and governance factors
- ▶ Development of net zero carbon plan
- ▶ Compliance with World Gold Council RGMPs

GROW RESERVES & RESOURCES

- ▶ \$39M exploration and drilling budget in 2022
- ▶ Robust multi-year drill program underway at ELG Underground
- ▶ Step-out and infill drilling at Media Luna; initial infill program at EPO
- ▶ Regional exploration to test high priority targets

LEVERAGE INNOVATION

- ▶ Reduce risk and drive value through technology (i.e. RopeCon, SART, Filtered Tailings)
- ▶ Maintain IP and optionality of monorail-based technology

EL LIMÓN GUAJES (“ELG”) – A FOUNDATIONAL ASSET

Future supported by strong cash flow and robust margins from ELG¹

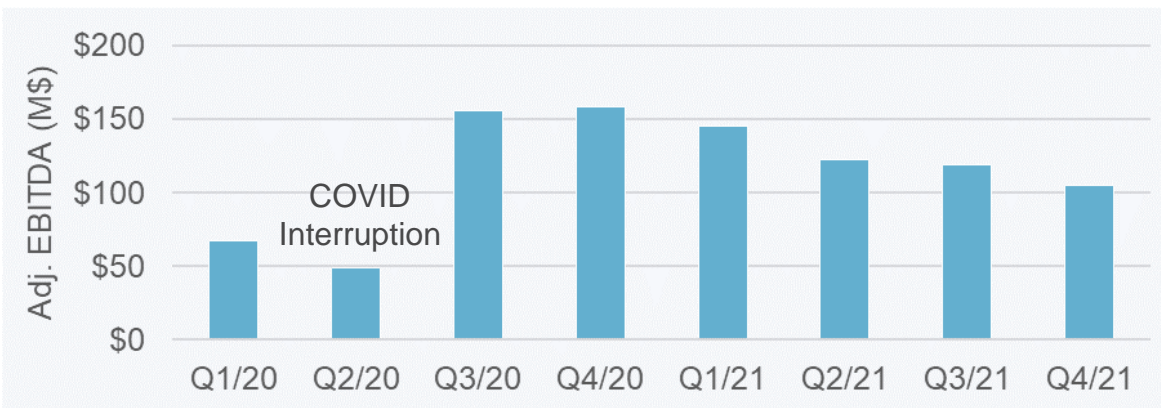

Record production of 468,203 ounces in 2021

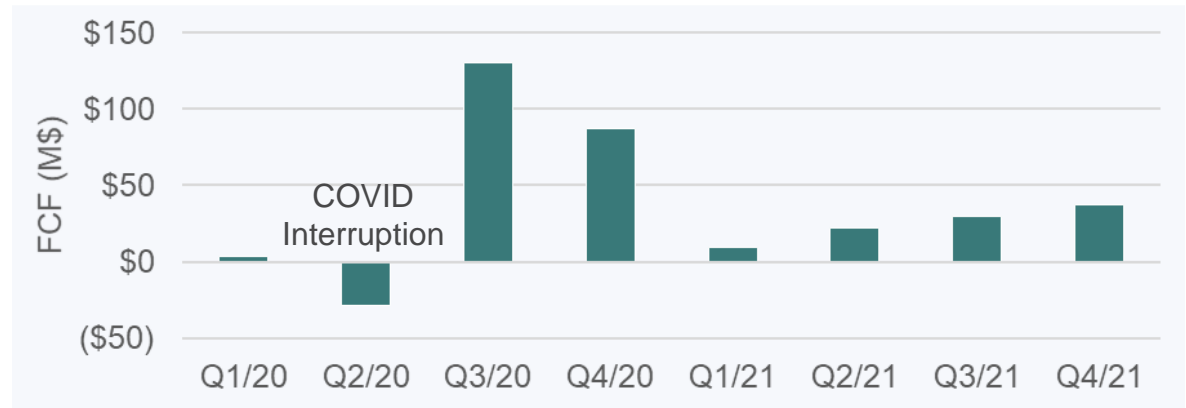

AISC² margin of 47% achieved in 2021

Generated \$491M of adjusted EBITDA² in 2021

Free cash flow² of \$98M during 2021

1) Please refer to Safe Harbor Statement on slide 2.

2) For more information on operational and financial results, including information on non-GAAP measures (such as realized gold price, total cash costs, total cash costs margin, all-in sustaining costs, all-in sustaining costs margin, adjusted earnings, EBITDA, adjusted EBITDA, free cash flow, sustaining and non-sustaining capital expenditures, unit costs, and net cash/debt), please refer to Torex Gold's latest MD&A filed on SEDAR (www.sedar.com) or on the Company's website (www.torexgold.com). See also Key Financial Metrics on slide 54 for the comparable GAAP financial measure.

OPERATIONAL GUIDANCE¹

Well positioned for another strong year in 2022

In millions of U.S. dollars, unless otherwise noted		2022	2021	
		Guidance	Guidance	Actual
Gold Production	koz	430 to 470	430 to 470	468.2
Total Cash Costs ²	\$/oz	\$695 to \$735	\$680 to \$720	\$674
All-in Sustaining Costs ²	\$/oz	\$980 to \$1,030	\$920 to \$970	\$928
Sustaining Capital Expenditures ²				
Capitalized Waste	\$	\$50 to \$60	\$45 to \$50	\$49.1
<u>ELG Sustaining</u>	\$	<u>\$35 to \$45</u>	<u>\$30 to \$40</u>	<u>\$36.2</u>
Total Sustaining	\$	\$85 to \$105	\$75 to \$90	\$85.3
Non-Sustaining Capital Expenditures ²				
ELG Non-Sustaining	\$	\$15 to \$20	\$25 to \$40	\$36.8
Media Luna Project	\$	\$220 to \$270	\$100 to \$110	\$115.6
<u>Media Luna Infill Drilling/Other</u>	\$	<u>\$20</u>	<u>na</u>	<u>na</u>
Non-Sustaining Capital Expenditures	\$	\$255 to \$310	\$125 to \$150	\$152.4

- Higher production anticipated in H2 than H1
- Modestly higher AISC in 2022 reflects incremental costs associated with pushback in El Limón open pit
- Upfront capital of \$220M to \$270M anticipated for Media Luna build in 2022

1) Please refer to Safe Harbor Statement on slide 2

2) For more information on operational and financial results, including information on non-GAAP measures (such as realized gold price, total cash costs, total cash costs margin, all-in sustaining costs, all-in sustaining costs margin, adjusted earnings, EBITDA, adjusted EBITDA, free cash flow, sustaining and non-sustaining capital expenditures, unit costs, and net cash/debt), please refer to Torex Gold's latest MD&A filed on SEDAR (www.sedar.com) or on the Company's website (www.torexgold.com). See also Key Financial Metrics on slide 54 for the comparable GAAP financial measure.

MULTI-YEAR OUTLOOK¹

Forward production ranges now incorporate gold equivalent output from Media Luna

Payable production		Guidance	Multi-year Outlook ^{1,2}		
		2022	2023	2024	2025
Updated outlook (Morelos Complex)					
Gold	koz	430 to 470	420 to 460		
Gold equivalent	koz			385 to 425	415 to 455
Prior outlook (ELG Complex only)					
Gold	koz	430 to 470	400 to 450	300 to 350	

- ▶ Projected improvement in 2023 reflects ongoing optimization within the ELG Mine Complex
- ▶ Increase in 2024 reflects first gold equivalent production from Media Luna
- ▶ Gold equivalent production expected to increase in 2025 as Media Luna ramp-up progresses
- ▶ Further growth anticipated in 2026 and 2027 as Media Luna achieves steady-state mining rates

1) Please refer to Safe Harbor Statement on slide 2.

2) Gold equivalent production is after payable factors and is based on long-term metal prices of \$1,600/oz gold, \$21/oz silver and \$3.50/lb copper.

ESG EXCELLENCE AS A FOUNDATION

Sustained performance & ongoing improvement on ESG disclosure a key focus

Managing the latest wave of COVID-19

- By year-end 2021, 97% of employees and 85% of contractors fully vaccinated against COVID-19
- Ongoing community support; providing transport to vaccination clinic in Cocula for community members
- Continue to mitigate supply chain risk

ESG Ratings

- MSCI: 'A' rating from 'BBB'
- Refinitiv: 'B' rating from 'C+'
- ISS: Significant ESG rating improvements – highest governance rating possible ('1')
- Sustainalytics: ESG Risk Rating Score improved to 35.3 from 47.7

Leading Safety Performance^{1,2}

Aligning with Leading ESG Standards

- Work underway to adhere to Responsible Gold Mining Principles (RGMPs) and International Cyanide Management Code; Year 1 requirements for RGMPs complete and independently assured
- Climate change strategy under development; 8.5 MW solar plant on Morelos property currently in permitting

1) Lost Time Injury Frequency ("LTIF") based on injuries per 1 million hours worked (employees & contractors) over prior 12-month period.
2) Total Reportable Injury Frequency ("TRIF") based on injuries per 1 million hours worked (employees & contractors) over prior 12-month period.

ESG EXCELLENCE AS A FOUNDATION

Delivering value to shareholders while making a positive difference in society

Productive relationships with employees

- 99% workforce from Mexico; 60% from Guerrero State
- Competitive compensation & benefits plus profit-sharing plan (“PTU”)
- 2-year CBA signed and ratified by unionized employees

Solid environmental performance

- Limited air emissions and zero water discharge operation
- Filtered tailings facility materially reduces current and legacy risk relative to conventional tailings

Strong governance & diversity focus

- Women make up 43% of Executive Team and 44% of Board of Directors
- Board refresh undertaken; 6 of 8 Independent Directors new to the Board in the last two years
- Guidelines enhanced to increase share ownership by Executive Team and Board

Strong relationships with local communities and stakeholders

- Community Development Agreements in place with 11 surrounding communities
- \$20.9M invested in local community development projects in 2020¹

1) Includes \$4M of direct investment by Torex and \$16.9M (paid in 2020 with respect to 2019) via the Mexican Fondo Minero (Mining Fund) tax & royalty payments to fund community infrastructure in mining communities

2) The use by Torex of any MSCI ESG Research LLC or its affiliates (“MSCI”) data, and the use of MSCI logos, trademarks, service marks or index names herein, do not constitute a sponsorship, endorsement, recommendation or promotion of Torex by MSCI. MSCI services and data are the property of MSCI or its information providers and are provided ‘as is’ and without warranty. MSCI names and logos are trademarks or service marks of MSCI. The ISS Quality Scores are current to February 2022 (ISS updates scores monthly).

THE FOUNDATION FOR GROWTH HAS BEEN CAST^{1,2}

Development of Media Luna to have a material impact on Morelos Complex

- ▶ Life of mine more than triples to 11.75 years versus ELG standalone case of 3.5 years
- ▶ Annual AuEq sold³ of 374 koz at a mine-site AISC⁴ of \$954/oz AuEq
 - ▶ 450 koz AuEq at a mine-site AISC of \$929/oz AuEq through 2027 when mill is full
- ▶ Annual revenue of \$605M and mine-site EBITDA⁴ of \$298M
 - ▶ Sizeable exposure to copper which represents 20% of life of mine revenue
- ▶ Media Luna Project capital expenditure of \$848M
- ▶ Significant potential to enhance return through ongoing investment in exploration
- ▶ Well positioned to fund project while advancing strategic initiatives
- ▶ Experienced team in place to deliver Media Luna Project on time and on budget
 - ▶ Deep Board experience brings strong governance on project execution

1) Please refer to Safe Harbor Statement on slide 2.

2) As per Technical Report for the Morelos Complex dated March 31, 2022. Estimates as of April 1, 2022.

3) Gold equivalent sold assumes long-term gold price of \$1,600/oz (\$1,700/oz in 2022), silver price of \$21/oz and copper price of \$3.50/lb.

4) For more information on operational and financial results, including information on non-GAAP measures (such as realized gold price, total cash costs, total cash costs margin, all-in sustaining costs, all-in sustaining costs margin, adjusted earnings, EBITDA, adjusted EBITDA, free cash flow, sustaining and non-sustaining capital expenditures, unit costs, and net cash/debt), please refer to Torex Gold's latest MD&A filed on SEDAR (www.sedar.com) or on the Company's website (www.torexgold.com). For the year ended December 31, 2021, the following historic Non-GAAP Measures were reported in the MD&A: EBITDA - \$461.6M; Total cash cost (TCC) - \$674/oz Au; TCC margin \$1,120/oz Au; All-in sustaining cost (AISC) - \$928/oz, AISC margin - \$865/oz Au; sustaining capital costs - \$85.3M; and non-sustaining costs - \$152.4M. Please note that the mine-site sustaining costs and margin do not include Torex corporate G&A costs and potential sustaining exploration costs and mine-site EBITDA does not include Torex corporate G&A. See also Key Financial Metrics on slide 54 for the historical non-GAAP measure and the comparable GAAP financial measure.

MEDIA LUNA MINE DESIGN

Mineral Reserve¹ of 23 Mt to be mined from 6 discrete mining blocks

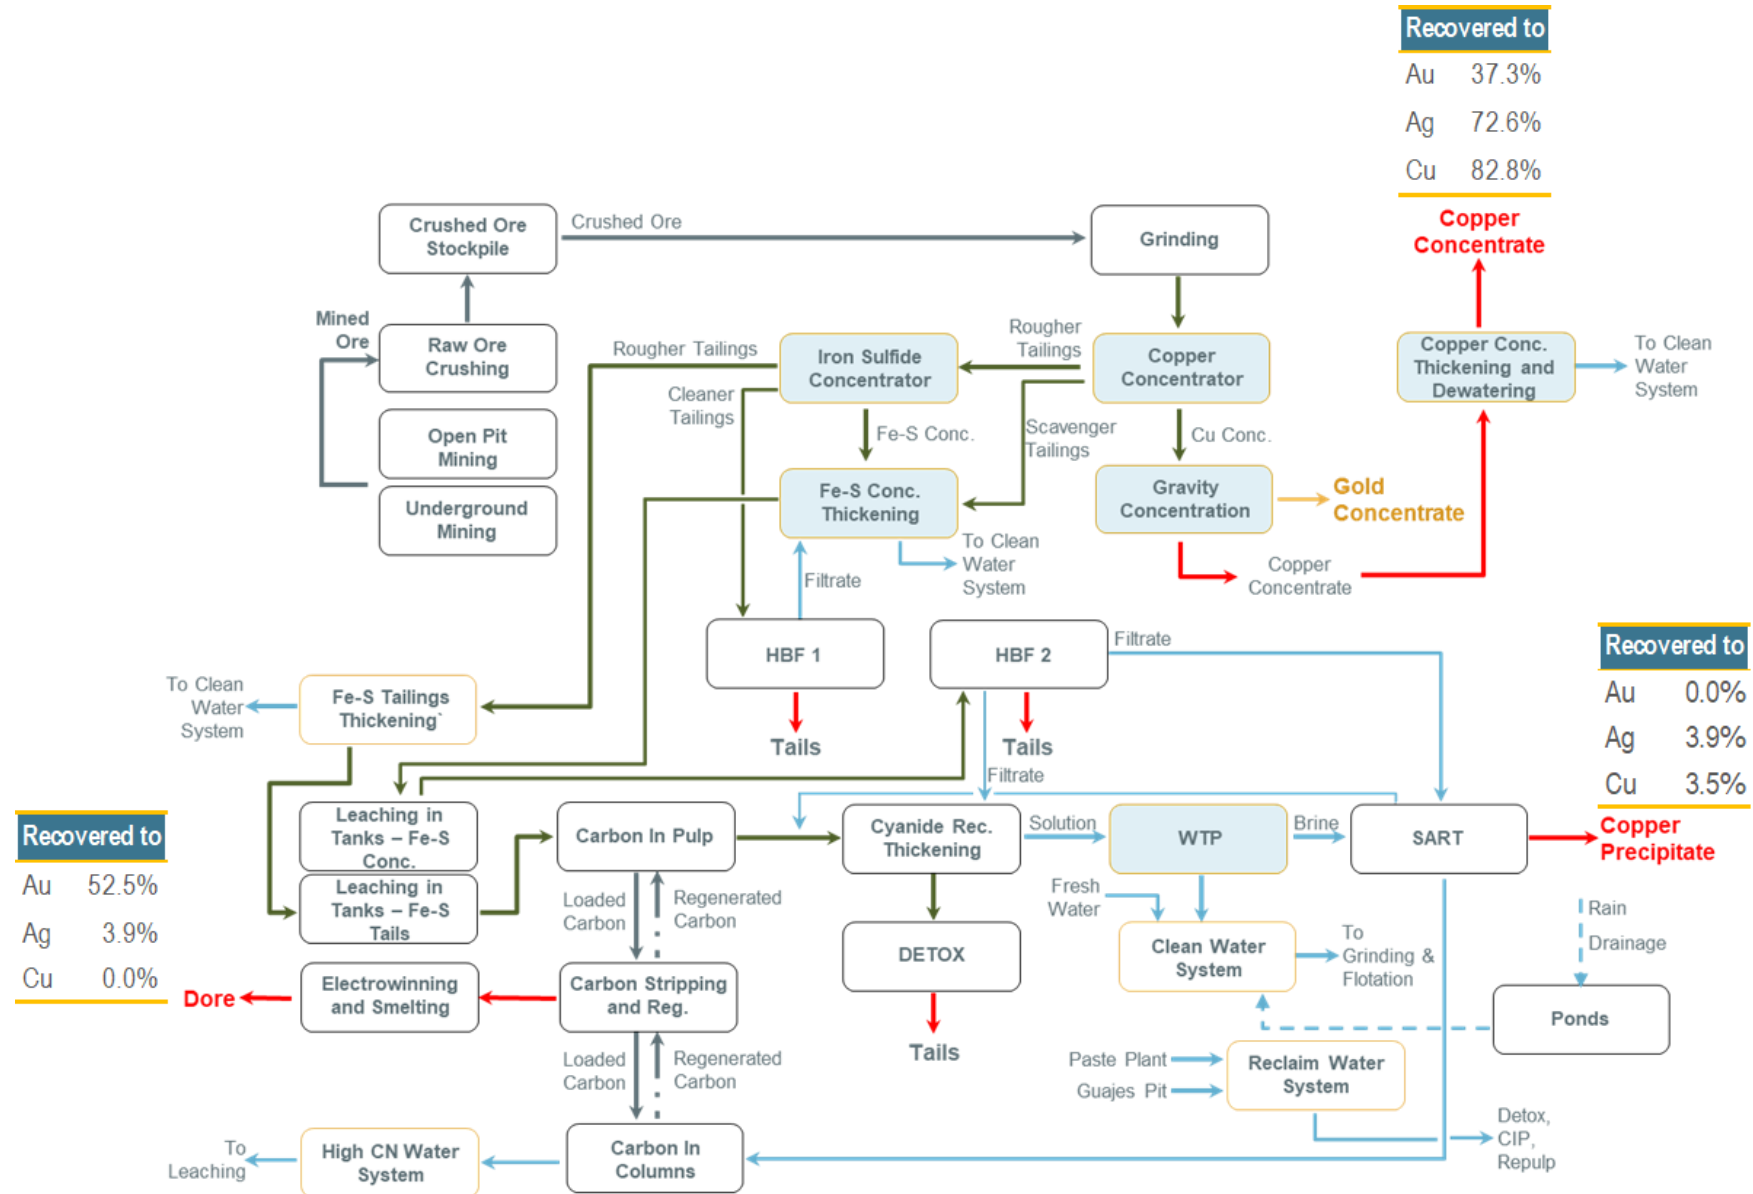

- ML designed for longhole open stope mining
- Separate mining blocks enable production capacity
- Dedicated infrastructure for each block

Looking Southeast

1) Please refer to Slide 40 for a summary of Mineral Reserves specific to Media Luna and overall Reserves for the Morelos Complex.

FINAL PROCESS FLOWSHEET FOR MORELOS COMPLEX¹

1) Please refer to Safe Harbor Statement on slide 2.

TUNNEL DEVELOPMENT^{1,2}

Advancing from both sides of Balsas River expected to mitigate schedule risk

- ▶ Guajes Tunnel expected to have advanced ~1,540 m by end of March
 - ▶ New bolter with longer reach has been commissioned
 - ▶ Budgeted a daily advance rate of 6.0 to 6.5 m
- ▶ South Portal Upper has now split with upper ramp expected to have advanced ~640 m by end of month
 - ▶ Budgeted a daily advance rate of 4.5 to 5.0 m
- ▶ South Portal Lower expected to have advanced ~440 m by end of month
 - ▶ Budgeted a daily advance rate of 4.5 to 5.0 m

1) Please refer to Safe Harbor Statement on slide 2.

2) Advance depicted in figure for illustrative purposes (relative positioning) as image is not to exact scale; Advance rates are estimated based on advance rates expected in March 2022.

CONSISTENT OUTPUT MAINTAINED THROUGH 2027¹

Media Luna extends production profile and provides meaningful exposure to Cu

- Annual AuEq sold^{2,3} of 450 koz through 2027 when process plant is at full capacity
 - Similar run rate as last three years
- Annual Cu sales of 45 Mlbs post 2024 when the ML Project becomes the primary source of ore
- Potential development of nearby EPO deposit and ongoing extension of ELG Underground would help fill the mill and defer processing of lower grade stockpiles

1) Please refer to Safe Harbor Statement on slide 2.
2) As per Technical Report for the Morelos Complex dated March 31, 2022.
3) Gold equivalent sold assumes long-term gold price of \$1,600/oz (\$1,700/oz in 2022), silver price of \$21/oz and copper price of \$3.50/lb.
4) 2022 includes estimated production in Q1 2022 and forward estimates from Technical Report starting April 1, 2022.

ATTRACTIVE COST PROFILE MAINTAINED^{1,2,3}

Robust margins forecast over life of mine including a mine-site AISC margin⁴ of 41%

- Average TCC⁴ of \$809/oz AuEq implying a TCC margin⁴ of 50% at base case metal prices
- Average mine-site AISC⁴ of \$954/oz AuEq implying mine-site AISC margin⁴ of 41%
- Potential to improve cost profile post 2027 by filling the mill

1) Please refer to Safe Harbor Statement on slide 2.

2) As per Technical Report for the Morelos Complex dated March 31, 2022.

3) Gold equivalent sold assumes long-term gold price of \$1,600/oz (\$1,700/oz in 2022), silver price of \$21/oz and copper price of \$3.50/lb.

4) For more information on operational and financial results, including information on non-GAAP measures (such as realized gold price, total cash costs, total cash costs margin, all-in sustaining costs, all-in sustaining costs margin, adjusted earnings, EBITDA, adjusted EBITDA, free cash flow, sustaining and non-sustaining capital expenditures, unit costs, and net cash/debt), please refer to Torex Gold's latest MD&A filed on SEDAR (www.sedar.com) or on the Company's website (www.torexgold.com). For the year ended December 31, 2021, the following historic Non-GAAP Measures were reported in the MD&A: EBITDA - \$461.6M; Total cash cost (TCC) - \$674/oz Au; TCC margin \$1,120/oz Au; All-in sustaining cost (AISC) - \$928/oz, AISC margin - \$865/oz Au; sustaining capital costs - \$85.3M; and non-sustaining costs - \$152.4M. Please note that the mine-site sustaining costs and margin do not include Torex corporate G&A costs and potential sustaining exploration costs and mine-site EBITDA does not include Torex corporate G&A. See also Key Financial Metrics on slide 54 for the historical non-GAAP measure and the comparable GAAP financial measure.

NON-SUSTAINING CAPITAL EXPENDITURES¹

Upfront cost to develop Media Luna Project estimated at \$848M

Metrics as of April 1, 2022	Total (\$M)
Non-Sustaining^{2,3} - Media Luna Project	
Directs	
Guajes Portal & Tunnel	\$75.8
South Portals & Tunnels	\$40.2
Underground Mine	\$172.6
Process Plant	\$98.3
Tailings and Paste Plant	\$77.8
On-Site Infrastructure	\$15.0
<u>Off-Site Infrastructure</u>	<u>\$25.9</u>
Total Directs	\$505.6
Indirects	
Freight and IMMEX	\$61.6
Contractor Indirects	\$20.3
Mobilization, Spares, Vendor Support	\$26.6
EPCM	\$81.5
Owners Cost	\$53.3
<u>Contingency</u>	<u>\$99.5</u>
Total Indirects	\$342.8
Total Non-Sustaining - Media Luna Project	\$848.4
<u>Total Non-Sustaining - ELG</u>	<u>\$1.7</u>
Total Non-Sustaining - Morelos Complex	\$850.1

- Excludes \$124M of project costs incurred prior to April 1, 2022
- Sunk costs include \$37M for Guajes Tunnel and \$28M for South Portals
- Upfront capital expenditure includes \$85M of underground mine development during pre-commercial mining period (Q4 2023 to Q4 2024)
- 60% of upfront costs are associated with Directs
- Contingency of \$100M worked up from first principals

1) Please refer to Safe Harbor Statement on slide 2.

2) As per Technical Report for the Morelos Complex dated March 31, 2022.

3) For more information on operational and financial results, including information on non-GAAP measures (such as realized gold price, total cash costs, total cash costs margin, all-in sustaining costs, all-in sustaining costs margin, adjusted earnings, EBITDA, adjusted EBITDA, free cash flow, sustaining and non-sustaining capital expenditures, unit costs, and net cash/debt), please refer to Torex Gold's latest MD&A filed on SEDAR (www.sedar.com) or on the Company's website (www.torexgold.com). For the year ended December 31, 2021, the following historic Non-GAAP Measures were reported in the MD&A: EBITDA - \$461.6M; Total cash cost (TCC) - \$674/oz Au; TCC margin \$1,120/oz Au; All-in sustaining cost (AISC) - \$928/oz, AISC margin - \$865/oz Au; sustaining capital costs - \$85.3M; and non-sustaining costs - \$152.4M. Please note that the mine-site sustaining costs and margin do not include Torex corporate G&A costs and potential sustaining exploration costs and mine-site EBITDA does not include Torex corporate G&A. See also Key Financial Metrics on slide 54 for the historical non-GAAP measure and the comparable GAAP financial measure.

SIGNIFICANT LEVERAGE TO STRONGER METAL PRICES^{1,2}

Implied IRR of Media Luna Project increases to 24.9% at spot prices

Metrics as of April 1, 2022		Morelos Complex	ELG Standalone	ML Incremental	Morelos Complex	ELG Standalone	ML Incremental
Base Case Metal Prices ⁴				Spot Case Metal Prices ⁵			
Economics							
Gross revenue	\$M	\$7,106	\$2,234	\$4,872	\$8,738	\$2,626	\$6,112
EBITDA ³	\$M	\$3,503	\$1,067	\$2,436	\$4,969	\$1,428	\$3,541
After-tax NPV (0%)	\$M	\$1,418	\$590	\$828	\$2,322	\$823	\$1,499
After-tax NPV (5%)	\$M	\$1,040	\$582	\$458	\$1,751	\$802	\$949
After-tax NPV (10%)	\$M	\$778	\$572	\$206	\$1,355	\$781	\$575
After-tax IRR	%			16.1%			24.9%
Project payback period	years			5.8			5.3
Long-Term Metal Prices							
Gold price	\$/oz	\$1,600	\$1,600	\$1,600	\$1,950	\$1,950	\$1,950
Silver price	\$/oz	\$21.00	\$21.00	\$21.00	\$25.50	\$25.50	\$25.50
Copper price	\$/lb	\$3.50	\$3.50	\$3.50	\$4.70	\$4.70	\$4.70

1) Please refer to Safe Harbor Statement on slide 2.

2) As per Technical Report for the Morelos Complex dated March 31, 2022.

3) For more information on operational and financial results, including information on non-GAAP measures (such as realized gold price, total cash costs, total cash costs margin, all-in sustaining costs, all-in sustaining costs margin, adjusted earnings, EBITDA, adjusted EBITDA, free cash flow, sustaining and non-sustaining capital expenditures, unit costs, and net cash/debt), please refer to Torex Gold's latest MD&A filed on SEDAR (www.sedar.com) or on the Company's website (www.torexgold.com). See also information on future non-GAAP Measures on slide 2 and Key Financial Metrics on slide 54 for the historical non-GAAP measure and the comparable GAAP measure..

4) Base case assumes metal prices of \$1,600/oz gold (\$1,700/oz in 2022), \$21/oz silver and \$3.50/lb copper.

5) Spot case assumes metal prices of \$1,950/oz gold, \$25.50/oz silver and \$4.70/lb copper. Spot case is based on operational and technical findings of the March 2022 Technical Report.

LEVERAGING EXCESS CAPACITY POST 2027¹

Exploration already targeting to the fill the mill while extending overall life of mine

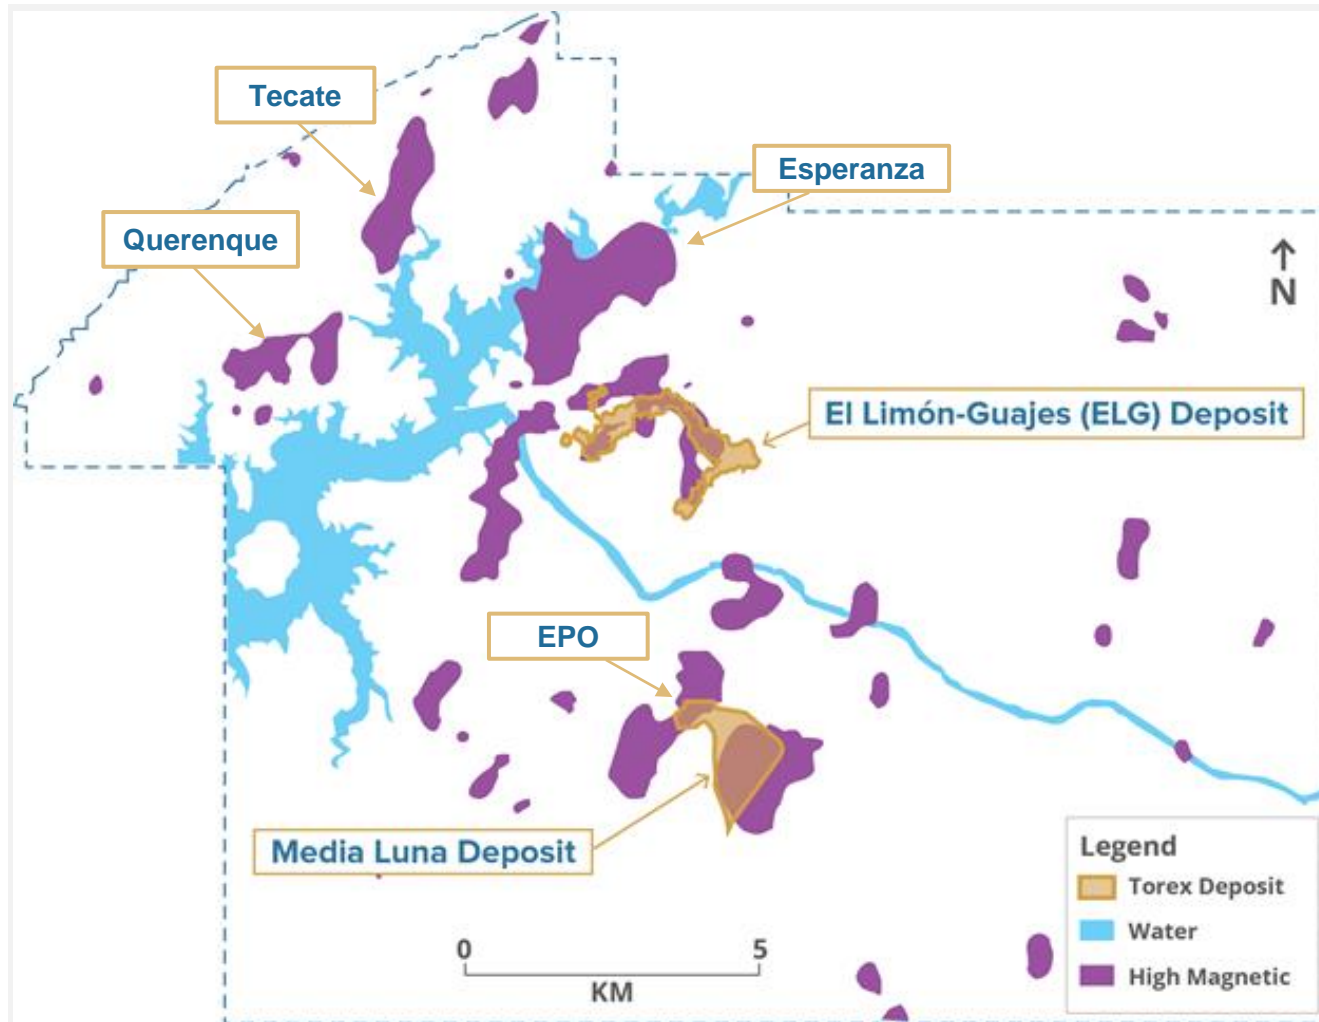

- Initiatives underway to address excess capacity post 2027
- Exploration/drilling a key strategic pillar
 - Historically under invested in exploration
 - Multi-year program underway
 - Investing \$39M in exploration/drilling in 2022

1) Please refer to Safe Harbor Statement on slide 2.
2) As per Technical Report for the Morelos Complex dated March 31, 2022.
3) 2022 includes estimated production in Q1 2022 and forward estimates from Technical Report starting April 1, 2022.

SIGNIFICANT RESOURCE POTENTIAL¹

75% of the broader property remains largely unexplored

- ▶ Drilling/exploration budget of \$39M in 2022
 - ▶ \$19M within ML Cluster (~64,000 m)
 - ▶ \$6M on infill and step-out drilling at ELG Underground (~28,000 m)
 - ▶ \$9M on near-mine drilling (~28,500 m) and regional exploration (~6,000 m)
 - ▶ \$5M on ore control and definition drilling
- ▶ Significant exploration potential remains across the broader Morelos property
- ▶ Multiple targets have been identified
- ▶ To date, magnetic anomalies have been a strong indicator of potential mineralization

ELG UNDERGROUND – A SIGNIFICANT VALUE DRIVER¹

Continues to be a key driver of Reserve growth

- Mined underground production² since 2019 has averaged 97 koz Au at a grade of ~7.4 g/t Au
- Record annual mining rate of ~1,260 tpd in 2021
- Underground gold Reserves increased 20% in 2021
 - Current Reserves plus cumulative gold mined represents a 3.5-fold increase over initial Mineral Reserves of 183 koz
- Robust multi-year exploration program underway
 - \$6M budgeted for drilling in 2022 (~28,000 m)
- Evaluating potential to deploy long-hole mining in portions of the ELG underground starting in 2023

1) Please refer to Safe Harbor Statement on slide 2.

2) Please refer to Slide 40 for a summary of Mineral Reserves specific to ELG Underground and overall Reserves for the Morelos Complex.

3) Mined production is prior to process recoveries which averaged 88% in 2021, 89% in 2020, 88% in 2019, 87% in 2018 and 86% in 2017.

MEDIA LUNA CLUSTER REMAINS UNDER EXPLORED¹

Significant resource potential exists within the broader Media Luna area

- Significant resource potential exists to expand Resources and Reserves around Media Luna
 - Current Mineral Resource covers about 1/3rd of associated magnetic anomalies
- Infill drill program underway at EPO deposit
 - Inferred Resource of 1.0 Moz AuEq at a grade of 3.97 g/t AuEq^{2,3}
 - Potential source of incremental mill feed
 - Located ~500 m from Guajes Tunnel
- Multi-year drill program underway
 - \$19M budgeted towards infill and step-out drilling within the broader “Cluster” in 2022

1) Please refer to Safe Harbor Statement on slide 2.
2) Please refer to Slide 42 for a summary of Mineral Resources specific to EPO deposit and overall Resources for the Morelos Complex
3) Gold equivalent resources and grade account for metal prices and metallurgical recoveries used to estimate Mineral Resources.

BALANCE SHEET & LIQUIDITY¹

Financial health of business continues to strengthen

Available liquidity of \$406M at end of Q4 2021

- ▶ Strong balance sheet with no debt
- ▶ Robust forecast cash flows from ELG Mining Complex through Media Luna build
- ▶ Target \$250M to \$300M of debt to support strategic priorities:
 - ▶ De-risk and advance Media Luna
 - ▶ Optimize and extend ELG
 - ▶ Increase focus on exploration/drilling
 - ▶ Maintain minimum liquidity of \$100M
- ▶ Several debt vehicles being investigated
 - ▶ Expect to execute in H2 2022

1) Please refer to Safe Harbor Statement on slide 2.

2) For more information on operational and financial results, including information on non-GAAP measures (such as realized gold price, total cash costs, total cash costs margin, all-in sustaining costs, all-in sustaining costs margin, adjusted earnings, EBITDA, adjusted EBITDA, free cash flow, sustaining and non-sustaining capital expenditures, unit costs, and net cash/debt), please refer to Torex Gold's latest MD&A filed on SEDAR (www.sedar.com) or on the Company's website (www.torexgold.com). See also Key Financial Metrics on slide 54 for the comparable GAAP financial measure.

LIQUIDITY EXPECTED TO BE ENHANCED VIA DEBT FINANCING¹

Targeting \$250M to \$300M to support balance sheet during Media Luna build

- Annual cash flow of \$190M forecast through 2024 before ML expenditures at \$1,600/oz gold^{2,3,4}
- Analysis assumes \$20M of corporate G&A and \$35M of exploration/drilling annually
- Levered scenario includes at \$275M debt financing and associated carrying costs (7% interest rate)⁵
 - Debt repayment in 2026

1) Please refer to Safe Harbor Statement on slide 2.
 2) Assumes metal prices \$1,600/oz gold (\$1,700/oz in 2022), \$21/oz silver and \$3.50/lb copper.
 3) Based on Technical information in the March 31, 2022 Technical Report and estimates for production, costs, and cash flow for Q1 2022.
 4) Forward looking estimates also include \$20M annually of corporate G&A as well as \$35M of exploration/drilling annually through 2026 (these items were not included in the asset level economics outlined in the March 2022 Technical Report).
 5) Levered scenario assumes debt of \$275M, with a 4-year term, interest rate of 7.0%, and bullet repayment in 2026.

EXECUTING ON PLAN EXPECTED TO DELIVER RE-RATING

Several key deliverables anticipated in the coming months

Optimize & Extend ELG

- Deliver consistent production and cash flow
- Improve on production outlook in 2023 and 2024
- Potential to increase throughput from ELG UG

Advance & De-Risk Media Luna

- Advance Guajes Tunnel as per schedule
- Execute on long lead orders
- Approval of MIA Integral

Grow Reserves & Resources

- \$39M drill budget in 2022
- Fill the mill beyond 2027
 - ELG UG
 - Media Luna & EPO
 - Regional targets

Appendix

March 2022 Technical Report

All amounts expressed in U.S. dollars unless otherwise stated

SUMMARY OF MARCH 2022 TECHNICAL REPORT^{1,2}

Metrics as of April 1, 2022		Morelos Complex	ELG Standalone	ML Incremental
Total Processed				
Life of Mine	years	11.75	3.5	8.25
Total ore processed	kt	39,778	15,931	23,847
Gold (Au) grade processed	g/t	2.89	2.91	2.88
Silver (Ag) grade processed	g/t	16.7	4.3	25.0
Copper (Cu) grade processed	%	0.56	0.12	0.85
Total Payable Sold				
Gold (Au)	koz	3,294	1,330	1,964
Silver (Ag)	koz	15,587	661	14,926
Copper (Cu)	Mlbs	409	4	405
Gold equivalent (AuEq) ²	koz	4,392	1,347	3,045
Unit Operating Costs (including PTU)³				
ELG Open Pit	\$/t mined	\$2.81		
ELG Underground	\$/t ore mined	\$98.19		
ML Underground	\$/t ore mined	\$34.04		
Processing	\$/t ore milled	\$34.54		
Site support	\$/t ore milled	\$13.47		
Transport/Treatment/Refining	\$/t ore milled	\$5.67		
Total operating cost	\$/t ore milled	\$84.15		
Total operating cost with royalties	\$/t ore milled	\$89.08		

1) Please refer to Safe Harbor Statement on slide 2.

2) As per Technical Report for the Morelos Complex dated March 31, 2022.

3) Gold equivalent sold assumes long-term gold price of \$1,600/oz (\$1,700/oz in 2022), silver price of \$21/oz and copper price of \$3.50/lb.

4) For more information on operational and financial results, including information on non-GAAP measures (such as realized gold price, total cash costs, total cash costs margin, all-in sustaining costs, all-in sustaining costs margin, adjusted earnings, EBITDA, adjusted EBITDA, free cash flow, sustaining and non-sustaining capital expenditures, unit costs, and net cash/debt), please refer to Torex Gold's latest MD&A filed on SEDAR (www.sedar.com) or on the Company's website (www.torexgold.com). See also information on future non-GAAP Measures on slide 2 and Key Financial Metrics on slide 54 for the historical non-GAAP measure and the comparable GAAP measure..

SUMMARY OF MARCH 2022 TECHNICAL REPORT^{1,2}

Metrics as of April 1, 2022		Morelos Complex	ELG Standalone	ML Incremental
Operating Costs³				
Total cash costs - gold equivalent	\$/oz AuEq	\$809	\$831	
Mine-site all-in sustaining costs - gold equivalent	\$/oz AuEq	\$954	\$1,023	
Total cash costs - by-product	\$/oz Au	\$545	\$820	
Mine-site all-in sustaining costs - by-product	\$/oz Au	\$739	\$1,015	
Total Capital Expenditures³				
Non-sustaining	\$M	\$850	\$2	\$848
Sustaining	\$M	\$545	\$184	\$361
Reclamation and closure	\$M	\$93		
Economics				
Gross revenue	\$M	\$7,106	\$2,234	\$4,872
Mine-site EBITDA ³	\$M	\$3,503	\$1,067	\$2,436
Cumulative cash flow	\$M	\$1,418	\$590	\$828
After-tax NPV (5% discount rate)	\$M	\$1,040	\$582	\$458
After-tax IRR	%			16.1%
Project payback period	years			5.8
Base Case Commodity/Currency				
Gold price	\$/oz	\$1,600	\$1,600	\$1,600
Silver price	\$/oz	\$21.00	\$21.00	\$21.00
Copper price	\$/lb	\$3.50	\$3.50	\$3.50
MXN/USD		20.00	20.00	20.00

1) Please refer to Safe Harbor Statement on slide 2.

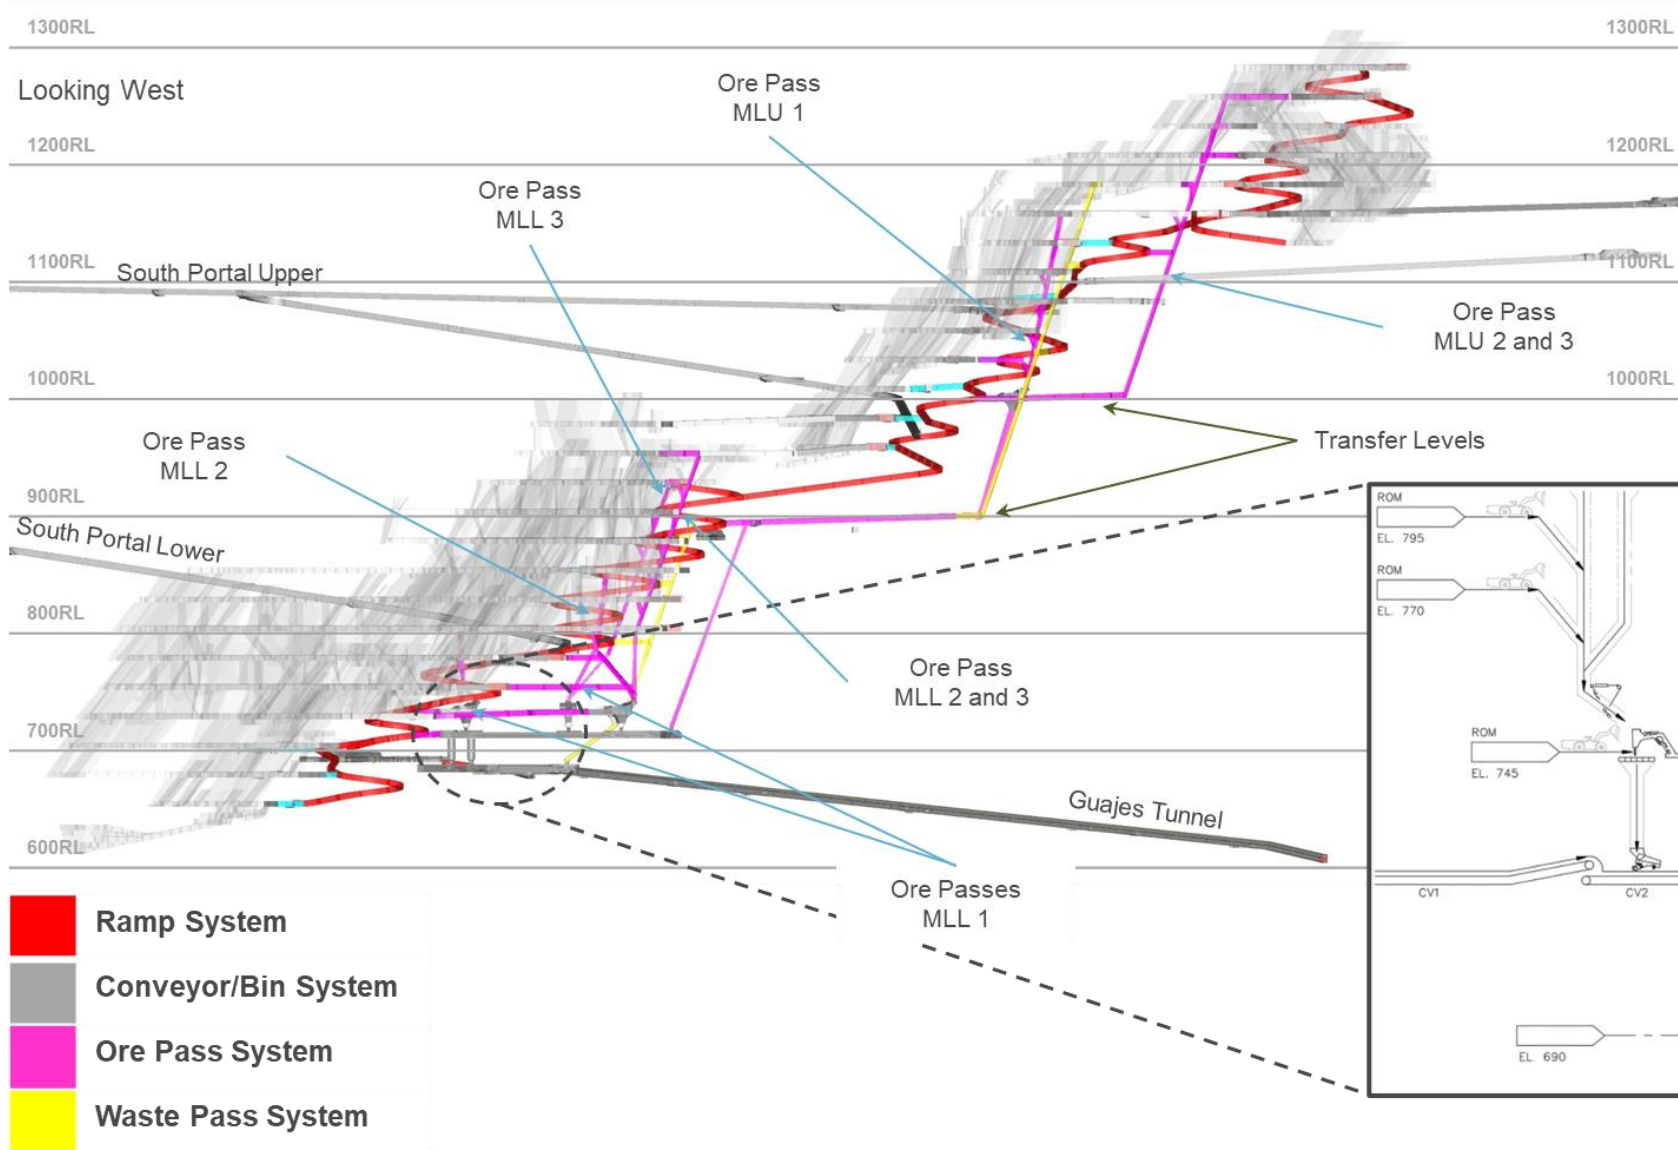

2) As per Technical Report for the Morelos Complex dated March 31, 2022.

3) Gold equivalent sold assumes long-term gold price of \$1,600/oz (\$1,700/oz in 2022), silver price of \$21/oz and copper price of \$3.50/lb.

4) For more information on operational and financial results, including information on non-GAAP measures (such as realized gold price, total cash costs, total cash costs margin, all-in sustaining costs, all-in sustaining costs margin, adjusted earnings, EBITDA, adjusted EBITDA, free cash flow, sustaining and non-sustaining capital expenditures, unit costs, and net cash/debt), please refer to Torex Gold's latest MD&A filed on SEDAR (www.sedar.com) or on the Company's website (www.torexgold.com). See also information on future non-GAAP Measures on slide 2 and Key Financial Metrics on slide 54 for the historical non-GAAP measure and the comparable GAAP measure..

MATERIALS HANDLING SYSTEM

Separate ore passes and one waste pass feed the GT conveyor

- Dedicated ore/waste passes
- Gravity fed grizzlies with rock-breakers
- Dedicated bins above Guajes Tunnel conveyor

MINE SERVICES & LOGISTICS¹

Building a clean, energy efficient mine with the future in mind

- ▶ Hybrid Fleet - Diesel and BEV mobile equipment
 - ▶ Less ventilation required, reduced vent infrastructure costs
 - ▶ Improved work environment, healthier working conditions (includes reduction in noise & no diesel particulate)
 - ▶ Reduced operating costs (including repairs and fuel cost reduction), higher availability (based on OEM inputs)
 - ▶ Reduced carbon footprint
- ▶ Ventilation Control Systems
 - ▶ Energy management to lower operating costs
- ▶ Remote-controlled rock breakers in surface control room
- ▶ Fiber backbone for communications and new technology

Mobile Equipment Fleet BEV

	Units
14 tonne LHD	11

Other	5

1) Please refer to Safe Harbor Statement on slide 2.

CREDIBLE RAMP-UP PERIOD ASSUMED FOR MEDIA LUNA¹

Media Luna expected to take 3 years to reach design rate of 7,500 tpd

- Assuming a 3-year ramp-up from initial production ore (3.5 years from first development ore)
- Industry ramp-up periods tend to be underestimated, which can have negative implications on working capital requirements and lead to potential funding shortfalls
- RBC Ramp-up Curve³ based on +150 operational start-ups

1) Please refer to Safe Harbor Statement on slide 2.
2) As per Technical Report for the Morelos Complex dated March 31, 2022.
3) RBC Ramp-up curve based on fitted curve of aggregate data and capped at 100% of design throughput (Source: RBC Capital Markets).

LIFE OF MINE RECOVERIES AND PAYABLE FACTORS^{1,2}

Ore from Media Luna will result in significantly higher copper and silver production

Morelos Complex	Concentrate			Doré/Other			Total		
	Au (koz)	Ag (koz)	Cu (Mlb)	Au (koz)	Ag (koz)	Cu (Mlb)	Au (koz)	Ag (koz)	Cu (Mlb)

1) Please refer to Safe Harbor Statement on slide 2.
 2) As per Technical Report for the Morelos Complex dated March 31, 2022.

MEDIA LUNA PROJECT CAPITAL COST¹

Initial capital cost planned expenditure by quarter

- Total projected spend of \$848M with peak quarterly spend through 2023
- Commercial production expected to be declared on January 1, 2025
- \$85M of underground mine development during pre-commercial mining period (Q4 2023 through Q4 2024)

1) Please refer to Safe Harbor Statement on slide 2.

2) As per Technical Report for the Morelos Complex dated March 31, 2022.

3) For more information on operational and financial results, including information on non-GAAP measures (such as realized gold price, total cash costs, total cash costs margin, all-in sustaining costs, all-in sustaining costs margin, adjusted earnings, EBITDA, adjusted EBITDA, free cash flow, sustaining and non-sustaining capital expenditures, unit costs, and net cash/debt), please refer to Torex Gold's latest MD&A filed on SEDAR (www.sedar.com) or on the Company's website (www.torexgold.com). See also information on future non-GAAP Measures on slide 2 and Key Financial Metrics on slide 54 for the historical non-GAAP measure and the comparable GAAP measure..

SUSTAINING CAPITAL EXPENDITURES¹

Reflects costs of running and sustaining a large-scale underground operation

Metrics as of April 1, 2022	Total (\$M)	Total (\$/t ore)	Total (\$/oz AuEq)
Total ore processed (kt)		39,778	
Total payable gold equivalent sold (koz AuEq)			4,392
Sustaining^{2,3}			
ELG Open Pit - Capitalized Stripping	\$93.7	\$2.4	\$21
ELG Open Pit - Other	\$24.8	\$0.6	\$6
ELG Underground	\$33.8	\$0.8	\$8
Media Luna Underground	\$266.0	\$6.7	\$61
Process Plant	\$92.8	\$2.3	\$21
<u>Support equipment leases</u>	<u>\$34.0</u>	<u>\$0.9</u>	<u>\$8</u>
Total Sustaining - Morelos Complex	\$545.1	\$13.7	\$124

- \$46M in sustaining capital expenditures³ per year
 - Ongoing underground mine development
 - Mobile equipment rebuilds/replacements and lease payments (~50/50)
 - Overhauls/rebuilds for material rehandling, underground facilities and other infrastructure
 - Process plant improvements
 - Tailings facilities

1) Please refer to Safe Harbor Statement on slide 2.

2) As per Technical Report for the Morelos Complex dated March 31, 2022.

3) For more information on operational and financial results, including information on non-GAAP measures (such as realized gold price, total cash costs, total cash costs margin, all-in sustaining costs, all-in sustaining costs margin, adjusted earnings, EBITDA, adjusted EBITDA, free cash flow, sustaining and non-sustaining capital expenditures, unit costs, and net cash/debt), please refer to Torex Gold's latest MD&A filed on SEDAR (www.sedar.com) or on the Company's website (www.torexgold.com). See also information on future non-GAAP Measures on slide 2 and Key Financial Metrics on slide 54 for the historical non-GAAP measure and the comparable GAAP measure..

LIFE OF MINE UNIT COSTS^{1,2}

Opportunities to improve overall cost structure being investigated

Metrics as of April 1, 2022		Q2/22 to Q4/24 (Total)	2025+ (Total)	Life of Mine (Total)
Operating Unit Costs (with PTU)³				
ELG Open Pit	\$/t mined	\$2.81	\$0.00	\$2.81
ELG Underground	\$/t ore mined	\$96.25	\$100.56	\$98.19
ML Underground	\$/t ore mined	\$44.77	\$33.65	\$34.04
Processing	\$/t ore milled	\$32.63	\$35.43	\$34.54
Site support	\$/t ore milled	\$11.49	\$14.39	\$13.47
Operating Unit Costs (without PTU)³				
ELG Open Pit	\$/t mined	\$2.67	\$0.00	\$2.67
ELG Underground	\$/t ore mined	\$95.10	\$99.12	\$96.90
ML Underground	\$/t ore mined	\$44.77	\$33.00	\$33.42
Processing	\$/t ore milled	\$31.65	\$34.78	\$33.79
Site support	\$/t ore milled	\$10.85	\$13.98	\$12.99
Total Operating Cost				
ELG Open Pit	\$M	\$215.2	\$10.9	\$226.1
ELG Underground	\$M	\$133.7	\$113.3	\$247.0
ML Underground	\$M	\$36.8	\$733.0	\$769.8
Processing	\$M	\$399.6	\$944.6	\$1,344.2
Site support	\$M	\$137.0	\$379.7	\$516.7
Transport/Treatment/Refining	\$M	\$12.3	\$213.4	\$225.7
Employee profit sharing	\$M	\$56.7	\$55.0	\$111.7
Capitalized stripping	\$M	(\$44.5)	(\$49.2)	(\$93.7)
Total operating cost	\$M	\$946.8	\$2,400.7	\$3,347.5
Total operating cost	\$/t ore milled	\$75.00	\$88.41	\$84.15

- Potential to reduce ELG UG mining costs:
 - Employing longhole stoping
 - Opportunities to reduce contract mining costs
- Higher processing costs post 2025 reflect additional processes to recover metal at Media Luna
- Site support costs reflect under-utilized mill capacity post 2027
- Treatment, refining and freight costs increase with production of concentrate

1) Please refer to Safe Harbor Statement on slide 2.

2) As per Technical Report for the Morelos Complex dated March 31, 2022.

3) For more information on operational and financial results, including information on non-GAAP measures (such as realized gold price, total cash costs, total cash costs margin, all-in sustaining costs, all-in sustaining costs margin, adjusted earnings, EBITDA, adjusted EBITDA, free cash flow, sustaining and non-sustaining capital expenditures, unit costs, and net cash/debt), please refer to Torex Gold's latest MD&A filed on SEDAR (www.sedar.com) or on the Company's website (www.torexgold.com). For the year ended December 31, 2021, the following historic Non-GAAP Measures were reported in the MD&A: EBITDA - \$461.6M; Total cash cost (TCC) - \$674/oz Au; TCC margin \$1,120/oz Au; All-in sustaining cost (AISC) - \$928/oz, AISC margin - \$865/oz Au; sustaining capital costs - \$85.3M; and non-sustaining costs - \$152.4M. Please note that the mine-site sustaining costs and margin do not include Torex corporate G&A costs and potential sustaining exploration costs and mine-site EBITDA does not include Torex corporate G&A. See also Key Financial Metrics on slide 54 for the historical non-GAAP measure and the comparable GAAP financial measure.

ATTRACTIVE COST PROFILE¹

Reconciliation of gold equivalent costs and by-product costs

Metrics as of April 1, 2022	LOM (\$M)	AuEq (\$/oz)	Au (\$/oz)
Metal Sold			
Total payable gold equivalent sold (AuEq) ^{2,3}		4,392	
Total payable gold sold (Au)			3,294
Operating Costs			
Operating expenses	\$3,122	\$711	\$947
Treatment/Refining/Transport	\$226	\$51	\$69
<u>Royalties</u>	<u>\$206</u>	<u>\$47</u>	<u>\$63</u>
Total cash costs - before adjustments	\$3,554	\$809	\$1,079
Silver revenue (by-product)	(\$1,432)	\$0	(\$99)
<u>Copper revenue (by-product)</u>	<u>(\$327)</u>	<u>\$0</u>	<u>(\$435)</u>
Total cash costs⁴ - after adjustments	\$1,795	\$809	\$545
Capitalized open pit waste mining	\$94	\$21	\$28
Sustaining capital expenditures	\$451	\$103	\$138
<u>Reclamation</u>	<u>\$93</u>	<u>\$21</u>	<u>\$28</u>
Mine-site all-in sustaining costs⁴	\$2,433	\$954	\$739

1) Please refer to Safe Harbor Statement on slide 2.

2) As per Technical Report for the Morelos Complex dated March 31, 2022.

3) For more information on operational and financial results, including information on non-GAAP measures (such as realized gold price, total cash costs, total cash costs margin, all-in sustaining costs, all-in sustaining costs margin, adjusted earnings, EBITDA, adjusted EBITDA, free cash flow, sustaining and non-sustaining capital expenditures, unit costs, and net cash/debt), please refer to Torex Gold's latest MD&A filed on SEDAR (www.sedar.com) or on the Company's website (www.torexgold.com). See also information on future non-GAAP Measures on slide 2 and Key Financial Metrics on slide 54 for the historical non-GAAP measure and the comparable GAAP measure..

WELL POSITIONED ON THE INDUSTRY COST CURVE^{1,2}

Average mine-site AISC^{3,4} screens well against peers⁵ on a co-product basis

2021 Gold Production Ranked on All-in-Sustaining Cost*

Scenario: Market Intelligence 2020 Constant USD

1) Please refer to Safe Harbor Statement on slide 2.

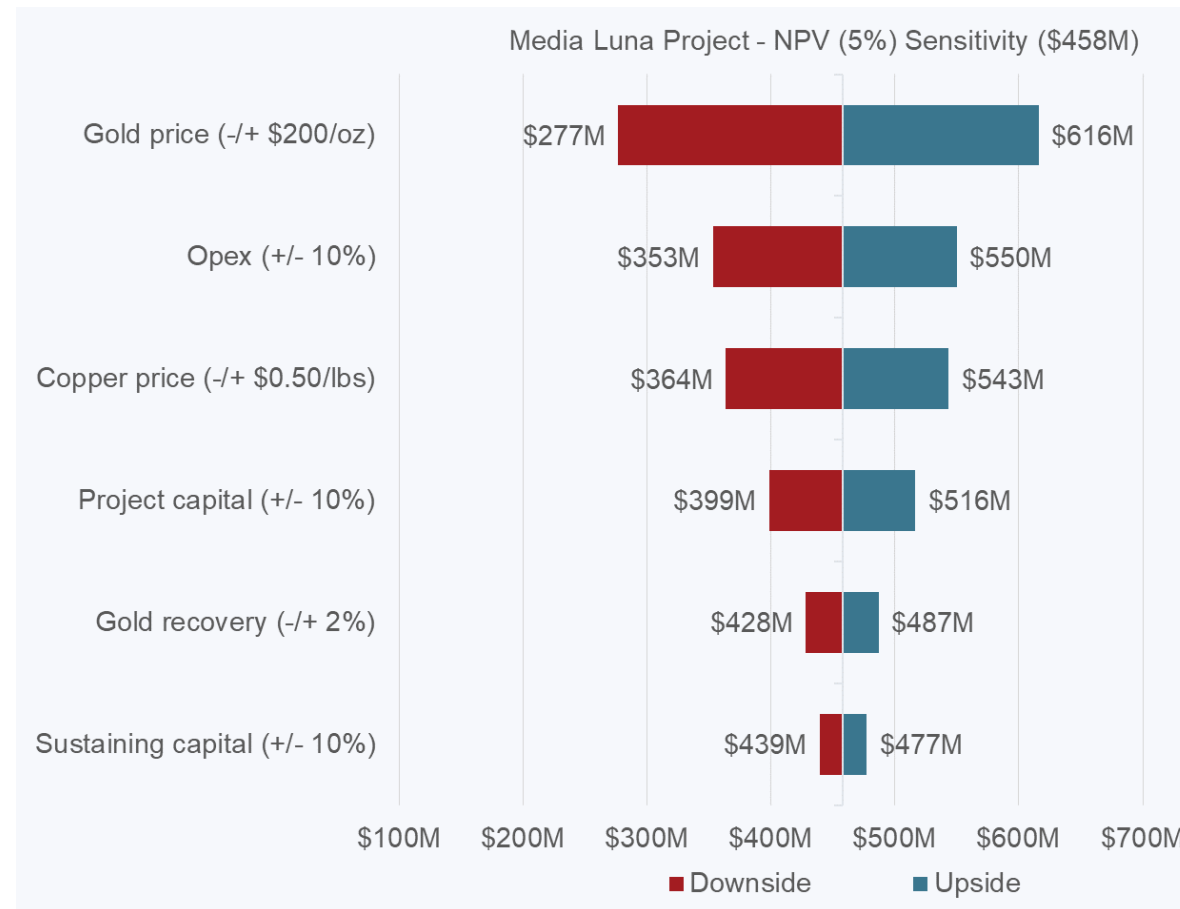

2) As per Technical Report for the Morelos Complex dated March 31, 2022.

3) For more information on operational and financial results, including information on non-GAAP measures (such as realized gold price, total cash costs, total cash costs margin, all-in sustaining costs, all-in sustaining costs margin, adjusted earnings, EBITDA, adjusted EBITDA, free cash flow, sustaining and non-sustaining capital expenditures, unit costs, and net cash/debt), please refer to Torex Gold's latest MD&A filed on SEDAR (www.sedar.com) or on the Company's website (www.torexgold.com). 1) For notes accompanying Mineral Reserves for Morelos Complex please refer to slide 68.

NOTES TO MINERAL RESERVES – MORELOS COMPLEX

Notes to accompany Mineral Reserve Table

1. Mineral Reserves were developed in accordance with CIM (2014) guidelines.
2. Rounding may result in apparent summation differences between tonnes, grade, and contained metal content. Surface Stockpile mineral reserves are estimated using production and survey data and apply the same AuEq formula as ELG Open Pits and ELG Underground.
3. AuEq of Total Reserves is established from combined contributions of the various deposits.
4. The qualified person for the mineral reserve estimate is Johannes (Gertjan) Bekkers, P. Eng., Director of Mine Technical Services.
5. The qualified person is not aware of mining, metallurgical, infrastructure, permitting, or other factors that materially affect the Mineral Reserve estimates.

Notes to accompany the ELG Open Pit Mineral Reserves

6. Mineral Reserves are founded on Measured and Indicated Mineral Resources, with an effective date of December 31, 2021, for ELG Open Pits (including El Limón, El Limón Sur and Guajes deposits).
7. ELG Open Pit Mineral Reserves are reported above a diluted cut-off grade of 1.1 g/t Au.
8. ELG Low Grade Mineral Reserves are reported above a diluted cut-off grade of 1.0 g/t Au.
9. It is planned that ELG Low Grade Mineral Reserves within the designed pits will be stockpiled during pit operation and processed during pit closure.
10. Mineral Reserves within the designed pits include assumed estimates for dilution and ore losses.
11. Cut-off grades and designed pits are considered appropriate for a metal price of \$1,400/oz Au and metal recovery of 89% Au.
12. Mineral Reserves are reported using a gold price of US\$1,400/oz, silver price of US\$17/oz, and copper price of US\$3.25/lb.
13. Average metallurgical recoveries of 89% for gold and 30% for silver and 10% for copper
14. $ELG\ AuEq = Au\ (g/t) + Ag\ (g/t) * (0.0041) + Cu\ (\%) * (0.1789)$, accounting for metal prices and metallurgical recoveries.

Notes to accompany the ELG Underground Mineral Reserves

15. Mineral Reserves are founded on Measured and Indicated Mineral Resources, with an effective date of December 31, 2021, for ELG Underground (including Sub-Sill and ELD deposits).
16. Mineral Reserves were developed in accordance with CIM guidelines.
17. El Limón Underground Mineral Reserves are reported above an in-situ ore cut-off grade of 3.58 g/t Au and an in-situ incremental cut-off grade of 1.04 g/t Au
18. Cut-off grades and mining shapes are considered appropriate for a metal price of \$1,400/oz Au and metal recovery of 89% Au.
19. Mineral Reserves within designed mine shapes assume mechanized cut and fill mining method and include estimates for dilution and mining losses.
20. Mineral Reserves are reported using a gold price of US\$1,400/oz, silver price of US\$17/oz, and copper price of US\$3.25/lb
21. Average metallurgical recoveries of 89% for gold and 30% for silver and 10% for copper
22. $ELG\ AuEq = Au\ (g/t) + Ag\ (g/t) * (0.0041) + Cu\ (\%) * (0.1789)$, accounting for metal prices and metallurgical recoveries.

Notes to accompany the ML Underground Mineral Reserves:

23. Mineral Reserves are based on Media Luna Indicated Mineral Resources with an effective date of October 31st, 2021.
24. Media Luna Underground Mineral Reserves are reported above a diluted ore cut-off grade of 2.2 g/t AuEq
25. Media Luna Underground cut-off grades and mining shapes are considered appropriate for a metal price of \$1,400/oz Au, \$17/oz Ag and \$3.25/lb Cu and metal recoveries of 85% Au, 79% Ag, and 91% Cu.
26. Mineral Reserves within designed mine shapes assume long-hole open stoping, supplemented with mechanized cut-and-fill mining and includes estimates for dilution and mining losses
27. $Media\ Luna\ AuEq = Au\ (g/t) + Ag\ (g/t) * (0.011188) + Cu\ (\%) * (1.694580)$, accounting for metal prices and metallurgical recoveries

1) For notes accompanying Mineral Resources for Morelos Complex please refer to slide 70.

NOTES TO MINERAL RESOURCES – MORELOS COMPLEX

Notes to accompany the Summary Mineral Resource Table

1. CIM (2014) definitions were followed for Mineral Resources.
2. Mineral Resources are depleted above a mining surface or to the as-mined solids as of December 31, 2021.
3. Mineral Resources are reported using a gold price of US\$1,550/oz, silver price of US\$20/oz, and copper price of US\$3.50/lb.
4. AuEq of total Mineral Resources is established from combined contributions of the various deposits.
5. Mineral Resources are inclusive of Mineral Reserves.
6. Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability.
7. Numbers may not add due to rounding.
8. The estimate was prepared by Mr. John Makin, MAIG, a consultant with SLR Consulting (Canada) Ltd. Mr. Makin is independent of the company and is a "Qualified Person" under NI 43-101.

Notes to accompany the ELG Mineral Resources

9. The effective date of the estimate is December 31, 2021.
10. Average metallurgical recoveries are 89% for gold, 30% for silver and 10% for copper.
11. $ELG\ AuEq = Au\ (g/t) + (Ag\ (g/t) * 0.0043) + (Cu\ (\%) * 0.1740)$. AuEq calculations consider both metal prices and metallurgical recoveries.

Notes to accompany the ELG Open Pit Mineral Resources

12. Mineral Resources are reported above a cut-off grade of 0.9 g/t Au.
13. Mineral Resources are reported inside an optimized pit shell, underground mineral reserves at ELD within the El Limón shell have been excluded from the open pit Mineral Resources.

Notes to accompany ELG Underground Mineral Resources

14. Mineral Resources are reported above a cut-off grade of 2.6 g/t Au.
15. The assumed mining method is underground cut and fill.
16. Mineral Resources from ELD that are contained within the El Limón pit optimization and that are not underground Mineral Reserves have been excluded from the underground Mineral Resources.

Notes to accompany Media Luna Mineral Resources

17. The effective date of the estimate is October 31, 2021.
18. Mineral Resources are reported above a 2.0 g/t AuEq cut-off grade.
19. Metallurgical recoveries at Media Luna (excluding EPO) average 85% for gold, 79% for silver, and 91% for copper. Metallurgical recoveries at EPO average 85% for gold, 75% for silver, and 89% for copper.
20. Media Luna (excluding EPO) $AuEq = Au\ (g/t) + (Ag\ (g/t) * 0.011889) + (Cu\ (\%) * 1.648326)$. EPO $AuEq = Au\ (g/t) + Ag\ (g/t) * (0.011385) + Cu\ \% * (1.621237)$. AuEq calculations consider both metal prices and metallurgical recoveries.
21. The assumed mining method is from underground methods, using a combination of long hole stoping and, cut and fill.

Appendix

Corporate Information & ESG

All amounts expressed in U.S. dollars unless otherwise stated

SAFETY AND OPERATIONAL EXCELLENCE INTERTWINED

Culture focused on safety evident by ongoing performance

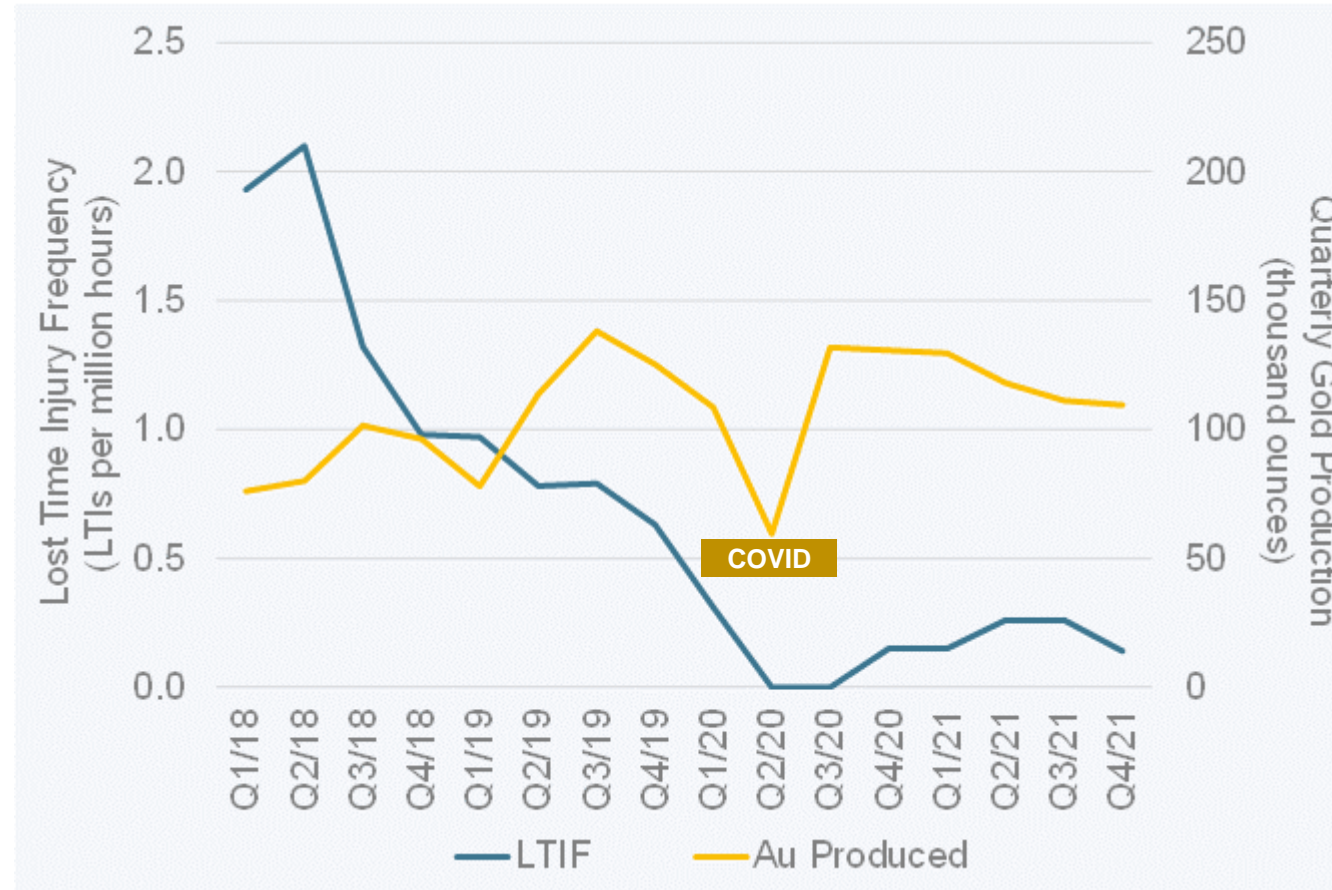

LEADERSHIP: Getting the right people in the right roles at the right levels to drive business excellence

SYSTEMS OF WORK:

- Incident reporting & investigations
- Field level risk assessments & inspections

CULTURE:

- Connecting the head & the heart to give people a reason to get home safely

SYSTEMS OF WORK:

- Business Process Framework (work order identification; planning, scheduling, execution)

CULTURE:

- Use of science & data to solve problems and continuously improve

RULES: Clear set of simple & enforceable rules with limits of discretion well-established and understood

WE ARE FOCUSED ON ENHANCING OUR ESG DISCLOSURE

Translating our actions associated with our values into real value¹

ENVIRONMENT

- Zero Discharge Site (no discharge into local watersheds)
- 105 hectares of land reforested in 2020
- Climate change plan to address physical and transition risk initiated
- New solar plant at ELG approved and permitting underway
- Signatory to International Cyanide Management Code – work toward full compliance in progress

SOCIAL

- Exited 2021 with a LTIF of 0.14 per million hours worked
- 99% of Workforce from Mexico 60% of workforce from Guerrero State
- 11 Local Community Development Agreements (CODECOPs)
- Invested \$4M directly into community development projects in 2020²

GOVERNANCE

- Seasoned Executive Team with 43% female representation
- Board refresh undertaken with 6 of 8 Independent Directors new in the last two years; 44% female representation
- Active Board committee focused on Safety, Environment and Corporate Social Responsibility
- Share ownership requirements increased for Executive Team and Board of Directors

1) Please refer to Torex Gold's 2020 Responsible Gold Mining report (www.torexgold.com)

2) \$4M is in addition to the Mexican Fondo Minero (Mining Fund) tax & royalty payments to fund community infrastructure in mining communities of which \$16.9 million was paid in Q1 2020 in respect of 2019

2020 RESPONSIBLE GOLD MINING REPORT

Key Highlights

- ▶ 99% operations employees from Mexico; \$64.3 million paid in salaries and benefits at site
- ▶ Industry leading safety performance
- ▶ Ratified two-year labour agreement with unionized employees (where annual agreements are the norm)
- ▶ 89% procurement spend in Mexico; \$42.4 million paid to companies in Guerrero State
- ▶ 11 unique Community Development Agreements (CODECOPs)
- ▶ \$4 million directly invested in local community development; \$20.9 million including contributions to Fondo Minero paid in 2020 related to fiscal 2019
- ▶ More than 105 hectares of land reforested and almost 66,000 native trees planted; Company target of 3:1 biodiversity offset
- ▶ Zero reportable environmental spills; zero water discharge site
- ▶ Globe & Mail 'Women Lead Here' honoree

INNOVATION: A KEY PART OF THE TOREX DNA

Leveraging innovation to drive value and mitigate risk

ROPECON

- Innovative 1.3 km automated conveyor system which transports ore to our processing plant over a 400 m vertical drop
- Reduces number of haul trucks and safety risk from driving loaded trucks downhill
- Produces most of the energy it consumes, limiting our carbon footprint

FILTERED TAILINGS

- “Dry-stack” filtered tailings facility best-in-class in the industry
- Moisture content of tailings reduced to 17% and then contained and stored; reduces water consumption versus conventional tailings by 1,500,000 m³ annually
- Eliminates the risk of dam failure in a seismically active area

SART PLANT

- Reduces consumption of our two most costly reagents (cyanide, metabisulfite) by 20-30%, or approximately \$10M/year
- Decreases the cyanide content of our tailings by 5x
- Produces a saleable by-product with revenues mostly offsetting operating costs (\$5.5M OPEX vs \$6.9M revenue)¹

1) Average based on 24 months of operation in 2019 and 2020

EXTENDING AND OPTIMIZING ELG A KEY STRATEGIC PRIORITY¹

El Limón pushback extends open pit mining

- Pushback of El Limón pit extends open pit production to mid-2024 from late-2023 and is expected to add ~150,000 ounces of production
- Accelerating near-term underground exploration to continue to extend life beyond current reserves
- Drill testing additional high priority targets including the down-dip extension of Sub-Sill and ELD deposits
- Portal 3 expected to reduce underground haul distances by ~50%; on track for completion in Q2 2022

1) Please refer to Safe Harbor Statement on slide 2.
2) Reserves and resources as of December 31, 2020.

COST PERFORMANCE¹

Actively pursuing opportunities to offset cost inflation

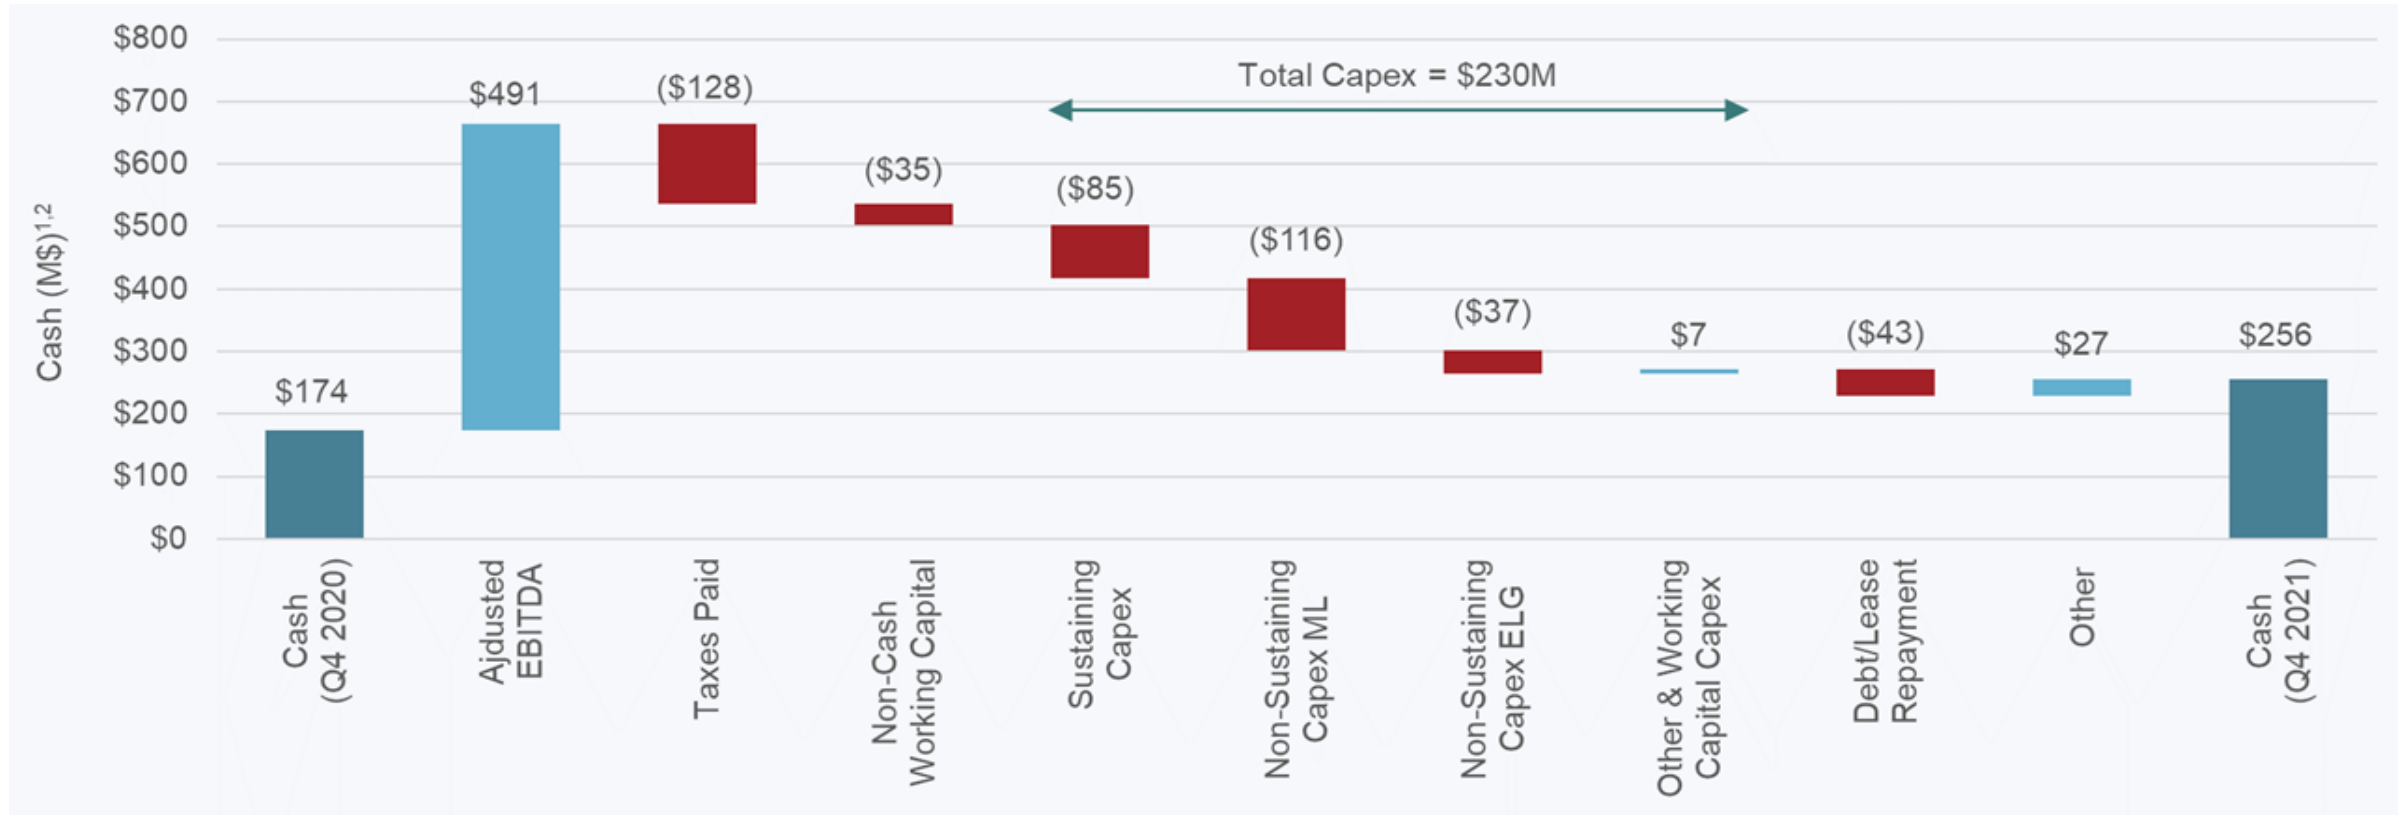

- Open pit costs higher due to RopeCon repairs mid-year and higher contractor costs associated with COVID-19
- Higher underground costs reflect increased levels of development than in 2020
- Processing costs reflect higher levels of cyanide consumption related to increasing levels of soluble iron and copper as the open pits become deeper
- Lower mandated profit sharing (PTU)² reflects impact of legislation passed earlier in the year
 - PTU now capped at the greater of 3 months of salary or trailing 3-year average payment per employee
- Actively pursuing cost containment opportunities across entire business to offset higher reagent costs and inflationary pressures

1) For more information on operational and financial results, including information on non-GAAP measures (such as realized gold price, total cash costs, total cash costs margin, all-in sustaining costs, all-in sustaining costs margin, adjusted earnings, EBITDA, adjusted EBITDA, free cash flow, sustaining and non-sustaining capital expenditures, unit costs, and net cash/debt), please refer to Torex Gold's latest MD&A filed on SEDAR (www.sedar.com) or on the Company's website (www.torexgold.com). See also Key Financial Metrics on slide 54 for the comparable GAAP financial measure.

2) Mining costs do not include the capitalization of waste and changes in inventory.

STRONG CASH FLOW GENERATION

Balance sheet continued to strengthen with \$256M in cash at year-end

- Generated \$330M in operating cash flow (\$365M prior to changes in non-cash operating working capital)
- Cash balance improved \$82M during the year including repayment of \$40M of remaining long-term debt and proceeds of \$32M from the sale of short-term investments

1) Sustaining Capex and Non-Sustaining Capex exclude a total of \$2.7M in lease payments as leases are considered financing obligations.

2) For more information on operational and financial results, including information on non-GAAP measures (such as realized gold price, total cash costs, total cash costs margin, all-in sustaining costs, all-in sustaining costs margin, adjusted earnings, EBITDA, adjusted EBITDA, free cash flow, sustaining and non-sustaining capital expenditures, unit costs, and net cash/debt), please refer to Torex Gold's latest MD&A filed on SEDAR (www.sedar.com) or on the Company's website (www.torexgold.com). See also Key Financial Metrics on slide 54 for the comparable GAAP financial measure.

CASH FLOW SEASONALITY^{1,2}

Cash flow tends to be weakest in H1 given timing of payments

- Seasonality expected to be more pronounced in 2022 than 2021 given gold production is anticipated to be higher in H2 than in H1
- Final payments related to royalties, profit sharing (PTU), and taxes are subject to movements in the Mexican peso relative to the US dollar
- Cash flow from operations prior to changes in non-cash operating working capital impacted by:
 - Payment of mining royalty
 - Payment of corporate income tax
- Cash flow from operations after changes in non-cash operating working capital impacted by:
 - Payment of 0.5% and 2.5% royalties
 - Payment of profit sharing

1) Please refer to Safe Harbor Statement on slide 2.

2) For illustrative purposes only. Actual payments subject to multiple factors including but not limited to actual profitability, prior year profitability, MXN/USD at time payments made.

BOARD OF DIRECTORS

Ongoing Board refresh to maintain strong strategic and governance experience

RICK HOWES PEng Chair of the Board

40 years global technical, operational and management mining expertise; awarded Outstanding Innovator of 2016 by Mining Technology Hall of Fame.

FRANK DAVIS JD, MBA, ICD.D

35+ years experience as a lawyer, in Canadian securities and mining law, and as a director. Other principal areas of practice included capital markets, M&A, and corporate governance. He was recognized as a leader in his field by such authorities as The Best Lawyers in Canada.

TONY GIARDINI CPA, CBV Audit Committee Chair

30+ years of experience in finance and mining, including C-suite experience at major mining companies.

JENNIFER HOOPER MSc (Environment) Safety & CSR Committee Chair

30+ years experience in safety, health, environment and sustainability roles in the mining industry, not-for-profit sector and government.

JAY KELLERMAN LLB Governance & Nominating Committee Chair

30+ years experience in corporate finance and securities law, significantly in the mining sector. Recognized as a leader in his field by numerous authorities including *The Canadian Legal Lexpert Directory*.

ROSIE MOORE MSc (Geology)

Exploration geologist whose 35+ year career includes experience in exploration, corporate management, investment & capital management and C-suite and director roles.

ROY SLACK PEng Technical Committee Chair

Almost 40 years experience in mine design and construction; awarded Engineer's Medal for Entrepreneurship by the Professional Engineers of Ontario and in 2009 he was awarded the Metal Mining Society Award by the Canadian Institute of Mining, Metallurgy and Petroleum.

ELIZABETH WADEMAN CFA ICD.D Compensation Committee Chair

~25 years experience in investment banking and capital markets.

JODY KUZENKO LLB

Joined Torex in 2018 as COO; assumed CEO position in June 2020. 20+ years of legal, operational and leadership experience, mainly at Inco/Vale.

MANAGEMENT TEAM

Proven experience navigating technical, commercial and social complexity

JODY KUZENKO LLB President and Chief Executive Officer
